INFORMATION REPORT

CHOOSE YOUR TOPIC

- Choose your topic: make sure your topic isn't too big or too small, it's something to do with your inquiry groups and it's something you're interested in.
- I chose pollutants at first but when I started I found the topic was too big so I narrowed it down to just air pollutants.

PLAN

- Planning for me was the hardest part of the text because I had know idea how. I found that collecting all your information and facts together and making subtitles worked the best. Then to take it a step further I did a

or the county describe, the creat in the or when furnery pallatants real or have an effect or searchery. The pallatants real or have an effect or searchery, they are termined depeth,

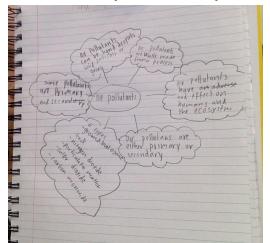

three are & as polytants costs monande, Lest, carloss

more are 3 , 15, 162, m, 502, en, 10

netrogen die Male Came/ particulate muster c super dioxide

forton dioxide 4

mind map to separate all my facts.

DRAFT

Once I had done my plan my draft was easy all I had to do was gather my information in a way that made sense. I changed my subtitles a little and put the right information under the right subtitles.

For pollulants are particules in the air tration regions eggets on humans and the economisms for the economisms from the solutions can be solid particular liquid don't

or gasses. They can be a nated origin or min made both hir publishants on within primary or

seconday, primary pollularits on usilly made pr a pieces like a molex vical or a solur major. Setundary pollularits ore not commission duelly sixy create in the air when primary.

and secondary they are employ durelly. &

different types of pollutarity

there are 6 different types of pollutarity, ground live of action, leady integer distribe, postable methor, subdivince, contain mortando

Has can us stop it

drive ks.

make sure you turn ope all electristy like light and compartus

pick up after your pels

me compost or morn facers

EDITING

- With editing all you have to do is go through to check your spelling and punctuation and everything as normal but I also suggest checking if your facts are correct because you don't want an information report that isn't truthful

PUBLISHING

- With the presentation of your information report you might want to do a sketch on A4 paper of what it is going to look like
- Then you are ready to publish and present
