

# I Have... Who Has...? <br> Money Game 

## How to Play:

- Distribute the cards randomly to your students. Some students will get more than 2 cards depending on the size of your class.
- Select a student to read their card out loud. E.g. I have \$0.10. Who has $\$ 1.00$ ?
- The student who has the card which displays $\$ 1.00$ in Australian coins says "I have $\$ 1.00$. Who has \$5.00?" and so on.
- Students listen for their turn so they do not break the chain.
- The game continues until it loops back around to the very first student. Then the game is over.
